Development Company Limited  
*Powering a New Generation...*

## **Bid Clarification Request**

**(In accordance with ITB 7.1)**

Reference Number:  
**RZ042100-PGG-COM-0040**

**Dominica Geothermal Risk Mitigation Project Contract**

**Subject: Bid Clarification 0040 - Bidding procedures**

**Bid Document Clause: Part 1, Section III, Para 2.7**

### **Detailed description of request**

Page 56 of Part 1 - Bidding procedures states that, Turbine subcontractor/ manufacturer must have:  
"10 years' operational experience with offered or similar model"

Our turbine manufacturing unit has more than 10 year's experience of manufacturing turbines of a very similar design, performance and capacity as will be proposed to Dominica GDC. However, the first turbine used specifically for geothermal applications was 6 years ago. Please confirm that this will still meet the criteria for experience purposes, since the turbine manufacturing facilities are used for geothermal as well as for other applications. The turbine designs are very similar even though they're being used for different applications.

**Enclosures:** None

### **Response:**

The requirements stated in Part 1, Section III, Para 2.7 are clear. The onus is on the manufacturer to show that their operational experience with similar turbines is applicable to the product being offered by the bidder in compliance with the Specification.

**Enclosures:** None

**This clarification does not require an Addendum to the Bid Document.**
