## Bid Clarification Request (In accordance with ITB 7.1)

Reference Number:  
**RZ042100-PGG-COM-0060**

### Dominica Geothermal Risk Mitigation Project Contract

**Subject: Bid Clarification 0060 – Accredited Experience**

**Bid Document Clause: ITB 39**

#### Detailed description of request

Note the difference between bid clarification 58 and bid clarifications 13 and 5. Please confirm whether you will definitively accept that experience is accredited through the subcontractor/technology supplier.

In addition to the above, you tell:

*"Bidders shall note the text underlined in ITB 36.1 above, that the Employer shall determine "...to its satisfaction...". This is different to the approach used for the substantial responsiveness evaluation"*

Does it mean that the evaluation is not 100% objective and a part of the final decision will depend on other factors not established in the bidding procedures documents?

Could you explain this?

---

**Enclosures:** None

#### Response:

Clarification 58 was issued as it had become apparent that Bidders may be overlooking ITB 39. Clarification 58 does not change anything stated in Clarifications 5 or 13. We believe that clarification 58 needs no further explanation. We have however noted a typo in Clarification 58. The text:

"(ii) Bidders shall note the text underlined in ITB36.1...."

Should read:

"(ii) Bidders shall note the text underlined in ITB39.1...."

The determination whether a Bidder and their Specialised Subcontractors meets the qualifying criteria set out in Section III, Evaluation and Qualification Criteria will be made by the Employer as set out in ITB 39, which has been clarified through this bidder query process.
